

MoU Tech.Land Partner signing document

At the 21st of May 2021 IHK Nord Westfalen, Twente Board and Oost NL signed, as founding fathers, a Memorandum of Understanding (MoU) to strengthen the cross-border collaboration between East-Netherlands and Nord Westfalen. In April 2024 this collaboration resulted in the launch of the Dutch-German TECH.LAND program.

Parties below in time signed up as TECH.LAND partners to the initiative: *City of Münster, City of Enschede, EUREGIO, Handwerkskammer Münster, Wirtschaftsförderung Münster, WTC Twente, Münsterland E.v., Wirtschaftsförderung Kreis Borken*

The TECH.LAND program is an open program that invites additional supporting partners to join and contribute. As of the date below [xxx] will join the program as TECH.LAND partner. Every new partner shows its commitment to cooperate with above mentioned existing parties on activities and intentions described in the TECH.LAND program (see appendix).

Next to that every TECH.LAND partner is expected to:

- Have a co-operative mindset to further stimulate innovation and the economic development of the TECH.LAND region;
- Show commitment to implement activities developed in the TECH.LAND program;
- Generate project ideas and contribute to projects in the TECH.LAND clusters;
- Give access to regional, national and international networks relevant for the development of the TECH.LAND program;
- Assist in building relationship with relevant administrative and political contacts on regional, national and European level;
- Contribute in human and/or financial resources;
- Contribute in the active marketing and communication in line with TECH.LAND mindset.

In the first quarter of every year TECH.LAND partners share what their contribution has been over the last year and what their intentions are for the next year. Sharing this information and/or signing this supporting partner document, it is not intended to create any legal or financial obligations or rights.

The TECH.LAND program is primarily funded by the founding fathers in a Region Deal project that is operational until end of 2026. In May 2026 there will be a discussion with all TECH.LAND partners how to continue the initiative for the long term.

Date: 16-5-2025
